SWEP ACCESSORIES

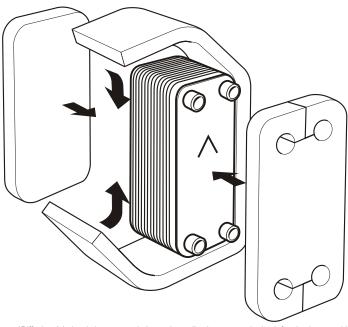

REF INSULATION

SWEP offers a wide range of Compact Brazed Heat exchangers (CBEs) for many demanding applications worldwide. SWEP's CBEs are complemented with a comprehensive range of accessories including stud bolts, support legs, counter connections, insulation and much more. This product sheet describes our insulation for refrigerant applications.

REF INSULATION

*Diffusion tight insulation, pre-cut holes and an adhesive tape on the back for simple assembly.

SWEPACCESSORIES

Ref insulation have been developed mainly for use in refrigerant applications at up to 105°C, and are available for most CBEs. Fitting the insulation to the CBE is quick and easy.

SWEP accessories meet the same high standards as the company's CBEs. They are produced according to SWEP's specification by rigorously selected suppliers. The high-quality materials are carefully chosen for compatibility, while the accurate dimensions save you time and money on installation. With SWEP accessories you have the assurance that everything will fit and perform the way the design engineers intended.
