

Valvole d'espansione termostatiche con gruppo orificio intercambiabile carica mop +15 °C (1) campo temperature d'evaporazione -40 → +10 °C  
 Thermostatic expansion valves with interchangeable orifice assembly mop charge +15 °C (1) evaporating temperature range -40 → +10 °C  
 Detendeur thermostatiques avec ensembles orifices interchangeables charge mop +15°C (1) plage de température d'évaporation -40 → +10 °C  
 Thermostatische Expansionsventile mit austauschbarem Düseinsatz mop +15°C (1) verdampf temperatur bereich -40 → +10 °C

Note:

(1)  
gruppo orificio da ordinare separatamente

(1)  
orifice assembly to be ordered separately

(1)  
ensemble orifice doit être commandé séparément

(1)  
Düsenersatz sind separat zu bestellen
